The judicious investment of the proceeds of these bonds would of itself he a good security for the obligation; but they have the further guarantee of a first mostgage upon the present road, which has cost over Fifteen Million Dollars, and whose net earnings are now double the entire inter est obligation it would assume.

The Louisville and Nashville Railroad Company is well known to be a

thoroughly solvent corporation, paving eight per cent dividends upon its stock. It is managed by gentlemen of high character and credit, and has never falled to meet all its liabilities of every kind at maturity. The mortgage will be for an unusually small proportion of the value of The mortgage off the land of the manual field of the property, and we therefore uniqualifield of recommendations to investors as in all respects a first-class security.

It is the purpose of the Company to issue, at present, only a small por-ion of its Bonds secured under this mortgage, which we are now authorized to sell, in luts to suit purchasers, at finety and accrued interest.
